

RESEARCH POSITION

Health Research Associates (<http://www.hrainc.net>) is a private outcomes research and evaluation consulting firm based in the Seattle, Washington metro area.

We are currently looking for a qualified candidate to fill an entry level research position with our team. This position will assist with coordinating, implementing and conducting studies to develop and test patient-reported outcome measures for use in clinical trials.

Job Description

Title: Research Associate I (Full time professional staff position; 40 hours per week)

Salary Range: \$55,000 to \$60,000 *Annual rate* (DOE) plus full benefits

General responsibilities: To assist the HRA research team with project coordination and study management (including study recruitment and monitoring; qualitative interviewing, coding, and analysis; study materials development; protocol development; literature reviews; and development of report materials). Responsibilities will initially be task-oriented as a team member on projects and eventually move to project coordination.

Supervision: The Research Associate will be expected to collaborate with project teams, other project coordinators and support staff. Direct supervision will be provided by the Executive Directors.

Work Schedule: Full-Time, flexible but regular schedule at HRA offices near Seattle, Washington. Project-related activities (such as interviewing and meetings) will require travel.

Experience Required:

This position requires a self-motivated, versatile individual with a relevant graduate degree (MPH, MSW, etc.) -OR- current enrollment in a graduate degree program and at least 2 years of experience or training in health-related qualitative research, interviewing and/or study management. Interviewing experience is required.

Experience Preferred:

Additional experience or coursework in qualitative research methods, survey research methods, measurement theory, program evaluation, instrument development, psychometric evaluation, epidemiology or biostatistics is preferred.

Please email resume and references (including a list of relevant coursework and publications) to:
